

# iConnect

Digital Trainer Communities

**Discover,  
develop  
and share  
knowledge  
and best  
practices.**

“ A secure, web-based solution that lets you get your learning community up and running in hours, not months. ”

iConnect

MOBILE VIDEO  
OBSERVATION

Getting the most from your training team means ensuring they have access to the insights, feedback and shared best practices that help make them more effective. iConnect provides your team with a secure, web-based learning community and mobile video observation platform that allows your team to:

- Improve learning outcomes through direct observational evaluation and feedback
- Leverage skills and knowledge by providing a platform for your team to share best practices
- Drive continuous professional development within your team

## iConnect is built on three key principles:

### MODELING

Allow trainees and peers to watch an experienced professional in action using state-of-the-art recording hardware

### OBSERVATION

Allow an experienced professional to observe trainers in action and provide feedback via a sophisticated web platform

### DIALOGUE

Enable discussion about how to improve, set objectives and move forward, regardless of the location of your team
